Chairman's Report:

Well it's nice to say for the first time in a long time I'm not the one who has put together Valve Bounce this month. Thanks again to Bill Revill who has taken on the task as editor of the magazine, it's an important one as the club magazine has been running since the 1960's and I don't think we should ever be prepared to let it fall over. Thanks also to John Bryant who does a lot of behind the scenes work to prepare content, print and distribute the magazine each month.

We've had some action at the club again this month with a Khanacross early in April, another on the weekend just gone and also a round of the VHCC hosted by PIARC. It's possible that the April 6th Khanacross was the windiest I've ever seen with cones blowing away in front of the drivers as they approached them!

The April 27th VHCC round went off well, theoretically we don't have to do as much work when someone else is hosting the event at our track but, as we all know, there is still plenty to do with our club organising the facility and running the timing for the event. Apart from some minor on track incidents, which included a low speed roll over, the event went very smoothly and we got 5 runs in and an early finish time. I'm not sure the PIARC team were too sure that we would have got 4 runs completed but we could have easily had 6. I do find it odd though that we hear a lot of feedback that people are unhappy when they only get 3 runs at a round of the VHCC, yet half the field packed up after run 4. Maybe it was the weather which did look threatening but didn't really yield any rain and pretty much every run was dry.

It was also great to see the canteen very busy at this round, early indications are that we had a great day in there and it was also good to see at least one new volunteer helping out. The canteen can be a bit of a thankless task so if you have an hour or two to spare please reach out to Julie and give her a hand in there.

By the time you read this we will have also completed the last task for the AHCC from last October which is a sponsor ride day. On Friday May 9th we have/will be hosting some of our major sponsors for some laps around the track in a variety of different cars. Thanks to the drivers and volunteers who have given up their time to make this a reality, it closes the loop on all of the work it took to organise and host the AHCC and it leaves a good impression on

our sponsors. I'll include a small write up and a couple of pictures in the next Valve Bounce.

That's it for me, I'll see you at our next working bee and practice day on May 24th if we don't cross paths before then.

See you soon
Jarrod Bryant

Working Bee:

In preparation for the upcoming VHCC round on the 27th we held a working bee and club member practice day earlier in the month on April 12th. We had to bring this one forward due to Easter but the place was still looking fantastic for the VHCC event.

We have quite the list of maintenance tasks still on our list and the great news is we managed to tick off one of the major long term things we have wanted to fix which was the cladding on the back of the club rooms. Over time our initial chequered flag cladding had started to rot and wear out and we had decided to replace this with steel cladding to future proof things.

Phil Tullett cracked into this task with the help of David Casey, Brett Barker, Geoff Cooling and Bill Jennings and it's fair to say it turned out to be bigger than originally planned. After getting

the cladding off it was discovered that some sections of the framing were also rotten and needed to be replaced. This didn't deter the crew and with a few extra hands they got in there, replaced the damaged frame sections, wrapped

it in new insulation and got the bulk of the cladding on. With only a few minor things to be finalised it looks fantastic and it has saved the club over \$10,000 versus getting it done by a 3rd party. Well done to everyone who made this happen and especially to Phil for organising and coordinating.

Also a big shoutout to Geoff Cooling for cooking the BBQ to feed the team with our usual chef Ian not there on the day.

On the day we also managed to get the bulk of the usual clean up tasks completed, the next job to tick off on May24th will be to clean up and paint some of the steel beams in the scrutineering shed area along with a variety of other small jobs.

Vice Chairmans Report – Rhys Yeomans. April 2025

GIPPSLAND CAR CLUB WINTER CUP

Round 1 – 1st June, Clockwise Round 2 – 27th July, Anticlockwise Round 3 – 24th August, Figure 8 Double Loop www.gippslandcarclub.com.au

The Winter Cup returns for 2025 across 3 rounds with 3 different layouts, to challenge all competitors!

Scoring for each round will be in line with the current Club Championship Hillclimb and prizes (actual cups, type to be determined!) will be presented to the top 3 outright.

Our Club hillclimbs have seen much lower numbers post Covid, so we are hoping a return of the Winter Cup will contribute to increasing these numbers. The Winter Cup is open to all car clubs, please share the details amongst your other clubs and friends.

Entries for Round 1 on 1st June are now open via Motorsport Australia Portal

RACES EAST SALE SPRINT CANCELLED -15th June 2025

RACES have been working tirelessly to align with the current RAAF security policies, and after their March cancellation, were hopeful to meet their June event deadline.

Unfortunately, they are close, though

not confident in gaining final approvals with enough time to prepare for the 15th June event.

At this stage, they plan to run the final two events in September and November.

BITS AND PIECES, INCLUDING FROM THE BOARD John Bryant

DENILIQUIN What do you know about Deniliquin? Those of you who know anything will say Deni Ute Muster, and the town is in the Riverina area of NSW, and to get there from Melbourne you would normally go through Echuca on to the very flat Hay Plains.

Deni is a nice little town, but it now has a new tourist attraction – The Depot Deniliquin. The Depot flaunts a diverse range of vehicles from around the world. Some of them are fully restored or original in immaculate condition, but some not so much, but each has an interesting story.

The Depot has a range of interactive displays as well as static displays. If you want a weekend in Deni, it is only 285 kilometres north of Melbourne, or much less if you live in places like Bendigo, as some of our members do. I believe it would be worth a visit if you are in the area.

REHAN LIYANAGE Rehan is one of our junior members and was one of the top qualifiers in the Victorian Esports Championship, which was held as part of MotorEx. I will report next month on his participation in the final — unfortunately MotortEx is held at the same time as Valve Bounce collation.

SHITBOX RALLY As you will by now be well aware, Greg Ackland is competing in the Spring edition of the 2025 Shitbox Rally.

Included in this edition of Valve Bounce is a page about the Rally and indicating how you can donate to the cause – the money does not go to Greg - it goes to the Cancer Council for further cancer research,.

It is good to see that a number of Club members have donated, as has the Club

LAKE MOUNTAIN SPRINT The Lake Mountain Sprint was held recently and featured a number of our members.

Dave and Jackie Thirlwall, driving an Audi RS3, finished in outright fourth position, Alan Rumble in a Lancer Evo 10 was in 21st position (probably would have won if he had been driving his Opel).

Keith Morling is his Escort RS1800 finished in 22nd position, and Hugh Feggans driving his Porsche was in 23rd position. Carrie and Sean Priestley came 29th in their Volkswagen Golf Type R. I notice that Bendigo resident Scott Innes finished in 19th position in his Subaru WRX

MEMBER PRACTICE – WHEN CAN I HAVE FREE PRACTICE AT THE TRACK? Club members are eligible to practice at the track on Working Bee days (provided they have done some work in the mornings) and also on the Saturday prior to competition days on Sundays.

When a competition day is on a Saturday, there is no opportunity for member practice. At this point in time, days when practice can be undertaken are as follows:

Saturday, May 24

Saturday, May 31

Saturday, June 28

Saturday, July 19

Saturday, July 26

Saturday, August 16

Saturday, August 23

Saturday, September 29

Saturday, October 11

Saturday, October 18

CALENDAR There are eight hill climbs listed, eight khanacross and four East Sale Sprints (not sure how many there will be now with the first two cancelled) included in the 2025 Club Championship, and all are at Bryant Park unless otherwise noted. The remaining events are as follows:

Sunday, June 1 Hill Climb

Sunday, June 15 East Sale Supersprint CANCELLED

Sunday, June 22 Khanacross (this is also a round of the Victorian

Khanacross Championship)

Sunday, July 27 Hill Climb Sunday, August 3 Khanacross Sunday, August 24 Hill Climb

Sunday, Sept 7 East Sale Supersprint

Sunday, Sept 14 Khanacross Sunday, Sept 21 Hill Climb

Sat/Sun, Oct 11/12 Aust Hill Climb Champs, The Bend, SA

Sunday, October 19 Hill Climb Sunday, October 26 Khanacross

Sunday, November 16 East Sale Supersprint

Sunday, November 29 Hill Climb Sunday, December 7 Khanacross

If there are any changes to this Calendar, they will be notified as soon as possible prior to the amended date.

ARTICLES FROM THE PAST This month I have included an article on the 2004 Australian Hill Climb Championship, which was held at Gippsland Park in late 2004.

As it turned out, this was the last of four AHCC events held at Gippsland Park during the period of its lifetime. The event was won in spectacular fashion by Gary West from WA, who won from a hot field on formula libre csrs. Driving his Lola T87/50, Gary won by 0.06 of a second from multiple championship winner Peter Gumly driving his SCV (Super Charged Volkswagen).

Note that Brett Hayward, Greg Ackland and Alan Foley all featured in the Top 10.

BOARD DISCUSSIONS The most recent Board meeting was delayed a week due to a number of members being unable to attend.

At the postponed meeting held on April 15, a number of items were discussed – these included the Working Bee held the previous Saturday, which was well attended and achieved a lot. Jarrod has written about this day elsewhere in this edition – the one thing we forgot to do was take a photo of the attendees. Barry Gibbons brought along his one family owned since new historic Formula Vee for a run – the car still goes and Baz can still drive!

Back to the meeting – we passed a motion to purchase a new pair of gates for the track entrance next to the Timing Building, we passed a motion to obtain quotes for a new set of stairs for the Timing Building (hooray says me who is probably the only person ever to have done a complete loop in the air whilst falling down these stairs at the AHCC), we discussed requirements for future working bees.

Rhys explained the Winter Cup competition which is being resurrected this year at the next three of our multiclub hill climbs, we talked about use of the track and ways in which we can publicised the fact that the track can be hired for competition and non-competition purposes.

Phil Tullett informed us that the keys to the new building are now keyed alike with Bilocks, and we were informed that the Victorian Hillclimb Advisory Committee is discussing the possibility of reducing the number of competition classes in the VHCC from next year onwards – a good idea we all agreed. We also discussed toilets, and, in particular, the height of the toilet bowls in the Clubroom toilets – the disabled toilet is one in particular that is very low for people with a disability. After 15 years of Board meetings in the Clubrooms (magnificent building but very cold in winter and very hot in summer, and it requires someone to be there many hours beforehand to set up the heating or cooling for the night), we decided to have our winter meetings in the new Cliff Whitehead Taj Mahal (new scrutineers office and teaching space) due to it being smaller in size, and being equipped with excellent lights and a split system for heating and cooling.. After all of that, the meeting closed at 8.20 p.m. after commencing at 7.05 p.m..

HAYLEY INKSTER Congratulations to Hayley Inkster (daughter of Anne and Wesley) on her recent wedding to Cameron Brock in Bendigo on April 5.

Help us raise \$5,000 for Cancer Research with Box Rallies

Acky and Bazz on tour

Greg Ackland & Barry Winkler are fundraising for the Cancer Council

Shitbox Rally Spring 2025 is not a race, rather a challenge to achieve the unthinkable... To drive cars worth just \$1,500 across Australia via some of its most formidable roads, all in the name of charity.

Scan the QR code to donate

Why we are rallying

We are really pleased to announce that we're taking part in Shitbox Rally 2025 - Spring! This year, all the teams are driving their shitboxes from Alice Springs to Gold Coast.

Shitbox Rally is the largest community lead fundraiser for Cancer Council in Australia and is now in its 15th year. Part of the participation is that all teams have to raise a minimum of \$5,000 but most teams raise well above this amount as you can see with the Spring 2025 rally target set at \$2,000,000 plus.

These funds go to Cancer Council and we are extremely proud to be doing our part to support such a worthy charity. The fundraising is the hard part, so any donation you can give is greatly appreciated. Please make sure to follow our progress via this page and the blog post below.

KHANACROSS, APRIL 6, 2025 – Scott Seddon was there and provided the following words and pictures.

Our April khanacross has the title of being the windiest khanacross in recent years, so much so we needed 3 cones stacked to stop a few of them from being blown around. We had 50 entrants and 45 show up to brave the wind and there were some first time runners. We had a great turnout of juniors at 9, which is 20% of entrants. As per usual, we saw over half of the field being MX5's.

We got through 8 layouts, including a new one which was kept as a surprise until the end. Kick off happened on time at 10, and all of the cars were loaded back on trailers by 3 p.m.. The thing that stood out when looking at the results were the number of penalties and the spread of runs they happened on. I'm not sure if this was due to the first time runners or the tricky conditions. There was almost a 4 second win to Andrew Tate from Simon Wills and the top 5 had a 10 second spread. Rocco was the top junior, coming 10th overall. The top 10 had the usual runners but not in the same positions as last time, which is good to see them sharing the positions around.

As with mostl 'khanas we see some healthy family competition out there. There were 10 cars with 2 drivers and 2 with 3. There were 2 juniors that beat the senior driver. Ben Selwyn managed to knock off Terry in his own car and the Ferg/Perks battle went to Alyssa for the first time – she has been close before, but this is her first win

The timing of khanacross events are supported by the MX5 Club which we thank them for, and to the Club members that put up with the wind, we couldn't have run it without you. Results for this event are elsewhere in this edition of Valve Bounce. The next khanacross event is on Star Wars Day, May 6th.

Mt Leura scenes

Some pics from Mt Leura recently taken by **Seven70 Photography**. Amazing to see a Triumph Vitesse No 168 competing (younger members would not even know what that is) and two Mallock U2 Clubmen – not often seen.

VICTORIAN HILL CLIMB CHAMPIONSHIP ROUND 4 – APRIL 27, 2025 John Bryant

There were over 80 entries for this event, 75 competed on the day. The event was organised and run by the Phillip Island Auto Racing Club (PIARC) as a track hire at our track. As well as being a round of the VHCC, the event was also a round of the Gippsland's Car Club Club Championship. A good crowd was in attendance, as well as some outstanding photographers. The Race Torque.com has some excellent photos on our GCC Facebook page, as does Zephyr Auto Media and Alan Laine – check our page for some excellent shots from the meeting. The photo below is by Alan Laine, and is of event winner Queenslander Dean Tighe at the wheel of his Empire Wraith.

The event was tight at the top, with Dean winning by just 0.50 of a second from Round 2 winner Greg Ackland driving his Ninja GA8, with SA driver Dave Mahon in third position in the Dallara, 0.90 of a second behind Greg. Mike Barker finished in fourth position in his Hayward 06, Matthew Healey fifth in the Yacar (could I fit in this car and would I be game to drive it??), Thomas Inkster sixth in his IDS historic sports car, Pete Minahan seventh in his Hayward 07, followed by Steven Buffinton in eighth in his Westfield Clubman Sport, Zacchary Hanlin in ninth and the first tin top in the BMW M140i, and rounding out the top 10, Jordan James in his Mitsubishi Evo.

Drivers were given the opportunity of having five runs for the day, but many pulled the pin after four as rain looked to be on the horizon —it stayed on the horizon and those who did the fifth run had a dry track, After all of that the event finished early at 3.30 p.m. Pictured below is second place getter Greg Ackland driving his Ninja GA8 (another Alan Laine photo)

Four new records were set on the day. The hew record holders are Jim McNiven (Sports Sedans up to 2000) with a time of 62.30, Zachary Hanlin (Improved Production 3001 to 6000) with a time of 61.38, Tom Kenworthy (Improved Production 4WD) with a time of 63.77, and Brenton Byfield (Time Attack) with a time of 63.93. Well done all. If you want to see all of the records for all of our track configurations, they are on our Gippsland Car Club website under Results.

Most classes had some good competition. The Formula Vee class was won by Cody Boys in a 1600 car by 0.37 of a second from Scott Slater in a 1200, Ryan Nothard was just 0.31 of a second behind Scott, with Harold Roberts in fourth just 0.50 of a second behind Ryan. Very close competition. Matthew Healy was first in the Formula Libre up to 1300 class, by 2.11 seconds from Pete Minahan, with Keith Wilson and Wesley Inkster in third and fourth. The FL 1301 to 2000 class was hard fought, with Greg Ackland first from Dave Mahon and Mike Barker. FL 2001 and over was a one horse race for Dean Tighe.

Steven Buffinton took out the Clubman Sports Cars by a couple of seconds from Dale Hocking. Sei Vella was first in Sports Cars Open/Closed up to 2000, with David Casey in third, Mark Patane in fourth and Ray Vella fifth. Lex Thorbecke finished in third in Sports Cars Open/Closed 2001 to 3000. Lasith Liyanage took out the Prod Sports 2B & 2F up to 2000, with Ian Maud 0.32 of a second behind in second and Ian Speight a further 1.19 seconds behind in third position. Jeffrey Marsh was in sixth position in his first hill climb.

Jim McNiven was a convincing winner in the five car Sports Sedans up to 1600, from Dale and Brett Barker and Jarrod Bryant. The question is, where is this photograph of Jarrod Bryant taken? (Photo by The Race Torque.com)

David Cantwell was first in the SS 1601 to 2000 class in his now big engine Civic, whilst Frank Penrose, in his innocent looking Datsun 180B, was an easy first in the SS 2001 and over field. Jordan James led home the field in the SS 4WD class by over three seconds. Thomas Foley, who finished third in this class, had an unfortunate incident when he went off the track just after Turn 3 and executed a slow roll – the car did not appear to have too much damage and Thomas was OK. Geoff Cooling was fourth in this class.

Brenton Byfield was on his own in the Time Attack class, and set a new record. Rhys Yeomans was an easy winner in the Improved Production up to 2000 class, David Parr finished in third position in the IP 1601 to 2000 class, with Terry Selwyn taking out the IP 2001 to 3000 class by a healthy margin. Zachary Hanlin was way in front of rest of the IP 3001 and over class, setting a new record in the process. Tom Kenworthy, driving his very nice Mercedes A45 AMG, took out the IP 4WD class by only 0.75 of a second from Joshua Feggans in a Subaru WRX.

Only three Historic vehicles competed in this event. Thomas Inkster was alone in the Historic-Other class, and finished in the Top 10, in his IDS (Photograph below from The Race Torque), whilst Steven Weymouth-Wilson was an easy winner in the Historic Group N up to 2000.

Rockin' and Rollin' at the Rob Roy Revival

Words: Bill Revill, Tony Lupton Photos: Bill Revill, Digby Watson, Spencer Lambert

In the spirit of the Goodwood Revival meeting in the UK, the third Rob Roy Revival proved to a great day of entertainment and motorsport with a record crowd attending.

"Around 850 spectators enjoyed perfect weather for the 2025 Revival, over 320 of them driving to Rob Roy in classic cars, to watch the 80 competitors attack the hill", said MG Car Club Secretary Tony Lupton.

There were several reasons for this spectacular turnout. How did the MGCC achieve this? From the start, the event was widely advertised in both usual and social media with a strong emphasis that this was an 'event', not just another hillclimb.

The Rob Roy hillclimb provides a beautiful setting for motorsport and the grounds

have never looked better, with the track in perfect condition and green grass covering the scenic, tree covered gulleys. A new feature at the circuit is the fully covered paddock area with stunning white marquees over the all the cars. This lifts the whole of the grounds and adds a level of professionalism to the event. The paddock area was open to the public with free entry so that people could see their

favourite cars up close and chat to the drivers. The legendary V8 Supercar driver, John Bowe, was there to support the event and to meet other enthusiasts.

The spectators were invited to take an active part of the day as well, with everyone requested to be dressed 'in period'. A sprinkling of participants did so, and it was enough to provide the vital historic feel. This included a 'fashions in the field' contest on the stage, with the chic ladies and handsome gentlemen showing their best 30's style. Other events kept the feel of the 30's including a jazz band playing on stage, a display of an Observed Section Trial by the Austin 7 Club and many people taking the opportunity to strut their best period clothing.

The cars, of course, are the feature of any event, with some of Australia's and the world's most beautiful and prestigious historic cars on track and in the pits. It was these cars that made it a revival – the same vehicles that were competing back through the history of Rob Roy, back to the 1930's.

Top time of the day was by Darren Visser driving his Bates Cycles Cyclo 500 who was the outright winner

for the second year running with an aggregate time of 48.99 seconds. This time combines the fastest runs on each of the longer chicane and traditional track configurations. Lyndon Arnel finished second outright with a time of 53.54 seconds in his Lola Ford T440, with Robin Bailey's MGB GT V8 third in a time of 53.94. The lone Triumph competing in this exclusive, invitation-only event was David Orchard in his beautiful Triumph TR 2 and was rewarded with a fine second place in his group amongst a top class field.

The community was also a beneficiary of the day. "The Revival also raised \$3000 for our partner charity, the Prostate Cancer Foundation of Australia. Our event patron, champion driver John Bowe AM, is also a Prostate Cancer Foundation champion and we are delighted to help the Foundation raise awareness and funds for prostate cancer research", Lupton said.

In summary, this was a landmark day for historic motorsport. It demonstrated that events can be enhanced to be much more than 'just another hillclimb' and to provide a great overall retro experience for an increasing number of enthusiasts of all ages. The record crowd demonstrates a thirst for such events.

2004 AUSTRALIAN HILL CLIMB CHAMPIONSHIP, GIPPSLAND PARK

- some musings from John Bryant

The 2004 Australian Hill Climb Championship was held at Gippsland Park from October 29 to October 31, with Thursday, October 28 being a practice day for any competitor who felt inclined to use the day for practice.

This was the fourth time that the GCC had conducted the AHCC, and, as it turned out, the last time that we conducted the event at Gippsland Park. The first event in 1977 (which I have written about previously) was held on the original track with the hump, whereas the 1989 event (won by Alan Hamilton in the Lola T87/50 Buick V6) and the 1999 event (won by Peter Gumley in the SCV) were held on track after the hump had been removed. The 2004 event was the third time this configuration had been used.

As is usual for an event of this magnitude, we started out early to find sponsorship for the event. We tried the usual automotive related places but had no luck – where to now? It was suggested at a Board meeting that we contact Tru Energy (Energy Australia now) to see if they were interested. We also though that we might have a discussion with them about resurfacing the track, which was by this time starting to get a little second hand (it was previously resurfaced in 1989, just prior to the 1989 AHCC). The discussion with Tru Energy revealed to us that they were contemplating taking over our track to expand the coal mine – this was news to us at the time and we had no inkling that this might occur. They did suggest to us that any resurfacing of the track would be a complete waste of money, as we would probably not be there much longer. That knocked the wind out of our sails, but the shock was tempered a little when they agreed to sponsor the 2004 AHCC. What happened between that time and the opening of the new track in 2008 provides the material for a whole new story, which I might write one day.

Major sponsor in hand – the next task was to find a large number of class and special award sponsors (32 in all) which we were able to do, many from the local area, but some from Melbourne and others from as far afield as Shepparton – this meant that we were able to offer other prizes as well as class prizes. Excellent – ready to go. Entries were opened and came in thick and fast – well over 100, with 110 recording a time during the event.

The next piece of organisation was to organise a 40th Anniversary (of the Club) dinner for the Saturday evening of the event, and find a guest speaker who would entertain us at this dinner as well as compete in the hill climb and draw some spectators. We had Peter Brock at the 1977 AHCC and looked around for a similar personality – Norm Beechey was the man, and he fitted the bill perfectly. Norm brought the big 409 Chev Impala to run in the event, and he was also a very entertaining guest speaker at the dinner, held at the Italian Australian Club in Morwell.

All in place – practice went off well, and everyone lived to fight on the next day. Saturday dawned fine and dry – the big dread when running a two-day event is that the first day is fine but the second day is wet. The outright favourite for the event was Peter Gumley, who had won the previous 6 titles in his SCV. GCC member Andrew Howell was certainly a title contender in his purpose built Pilbeam hill climb vehicle, whilst Gary West from WA, driving the Lola T87/50 Buick that won the event at Gippsland Park in 1989, was a dark horse for the win. Others who were in with a chance included Alan O'Connell from Queensland, Ashley Cutchie in the larger engine Swift Formula Ford owned by Andrew Howell, Rod Moody, Alan Foley and Garry Kent, whilst "new boys" to the AHCC in with a chance of doing well included Brett Hayward and Greg Ackland.

The track record at the time was under 30 seconds – a feat at that time achieved only by Peter Gumley, and it was anticipated that an under 30 second run would be needed to win the event – who could achieve that? The aim of the exercise for the two days was to have seven runs each – four on Saturday and three on Sunday.

Norm Beechey (409 Chev Impala)

Gary West (Lola T87/50 Buick V6)

Andrew Howell (Pilbeam)

Day One. The Saturday runs commenced spot on time at 9.00 a.m., with an estimated finish time for the day off around 3.30 p.m., which gave those going to the dinner plenty of time to get organised, and those wishing to play with their cars plenty of time to do that.

Run 1. All except Tom Donovan in his Zip Honda (Ewen Moile??) recorded a time. The front runner after the first run was Andrew Howell in the Pilbeam with a run of 30.93 seconds, from Alan O'Connell in the Van Dieman with 30.98 and, probably a surprise, Brett Hayward in third with a time of 31.09. Peter Gumley was half a second back, whilst Gary West was two seconds off the pace, trailing Garry Kent in the GAK 04. Terry Dowel was the fastest historic car whilst Norm Beechey managed to wrestle the boat sized Chev Impala around in under 40 seconds. Andrew Mitchell in the Farrell was the fastest sports car with a time of 33.39, Wayne Burden in the Gemini was the fastest sports sedan (just) with a time of 34.05, whilst Stephen Kent in the Sigma was the fastest improved production vehicle with a time of 35.92.

Run 2. Gary West found his two seconds and recorded a time of 30.42, with Brett Hayward recording a 30.65 to move into second overall. Andrew Howell slipped a little but still managed to retain third, from Peter Gumley in fourth who improved to 30.98. Alan O'Connell was slower, whilst Rod Moody recorded a time of 31.80 to move up the field. Terry Dowel improved almost two seconds to still be the fastest historic vehicle, whilst Norm Beechey recorded another sub 40 second

time. Andrew Mitchell was a little slower this time, but was still the fastest sports car. Wayne Burden was almost two seconds faster than any other sports sedan, whilst James Atkinson in the Gemini and Wim Janssen in the Honda Civic both recorded times in the low 36 second bracket in the improved production class, but still behind Stephen Kent

Run 3. Early afternoon, with the weather still fine and dry. Gary West put the cat amongst the pigeons by laying down a time of 29.99 seconds –

second fastest run ever at the track. Would that be enough to take the weekend? Perter Gumley had a slight mishap and lost six seconds, Alan O'Connell had a slight off and lost ten seconds, Andrew Howell recorded his best for the day so far with a time of 30.76, but he was slightly slower than Brett Hayward with an excellent time of 30.71. Ashley Cutchie improved a little to 31.37, Rod Moody was a little slower with 32.03, whilst Garry Kent improved to 32.05, but not fast enough to worry the front runners. Terry Dowel had a big off in the Mustang, and recorded a run 40 seconds slower than his best!! Norm Beechey had the afternoon off to go and visit a local winery with his wife Margaret! Wayne Burden continued to dominate all of the sports sedans, with consistent times in the 32 second bracket – Allan Hunt recorded the only other sub 34 second run by a sports sedan during the event with a 33.51 in his Torana. Meanwhile, James Atkinson improved to 35.98 to almost catch Stephen Kent as the fastest improved production vehicle.

Run 4. Last run for the first day. Peter Gumley put in his fastest run for the day with 30.81, fractionally faster than Brett Hayward with 30.82, but Gary West was still the fastest on this run with a 30.32. Andrew Howell had a lose in the Loop (see photograph above) and recorded a very slow 71.52, whilst all other contenders were a little slower than their previous runs. Terry Dowel continued at the head of the historic field, Andrew Mitchell did the same with sports cars, and Wayne Burden continued

on his merry way in sports sedans. James Atkinson snuck in a time of 35.81 to take over as the fastest improved production car, from Stephen Kent and Wim Janssen.

Day One over, with a 40th Anniversary Dinner to attend. We decided that as some people were remaining at the track, we would leave the timing equipment in place overnight (famous last decision as they would say in the classics!). Excellent dinner, Norm Beechey was an excellent speaker, and Carol and myself had the privilege of sitting with Norm (and Margaret), one of my boyhood heroes, for the night.

Day Two. Excellent weather for what promised to be an exciting day of hill climbing – all competitors were still keen and eager to proceed, but as it turned out, the organisers were not. We left the computer in place on Saturday night, and the area experienced some electrical problems overnight, such that all of the times for the event had been wiped out – excellent start to the day, especially for me as I was the Clerk of Course and had to explain to all and sundry what had happened, as well as work out what we were going to be able to do to continue on with the event.

We had the hard copy of results from Day 1, so Ben Jennings and Jason Bryant gave me a good talking to relieve my panic, and offered to enter all times into the computer again - a task that would take up about the time of one run. I called a drivers' briefing and explained to all what had happened. The plan was to have an untimed practice run, and follow this with three timed runs for the rest of the day. All competitors were very understanding, no one attempted to lynch me, and on we went – in fact, I think that many of them were secretly happy that they could have a practice run before the real runs for the day.

Run 5. Brett Hayward recorded his fastest time for the weekend, 30.54 – not enough to win the event. Alan O'Connell recorded his fastest with 30.48 – not fast enough. Ashley Cutchie put in his fastest – 30.98 – not enough. Gary West recorded a 30.15 – not as fast as the previous day, but still very fast. Peter Gumley came out and did a 29.72, fastest for the event so far and that certainly had people thinking – was that the AHCC winning run? Andrew Howell put in a slow run, Rod Moody improved, but not enough. Terry Dowel put in his fastest run for the weekend in a time of 36.42, and promptly retired for the day to watch everyone else try to catch him (which they did not). Andrew Mitchell continued at the head of all of the sports cars, still almost two seconds in front of the next fastest. Wayne Burden did the same in sports sedans, although not as far in front of the others. Wim Janssen took over as the fastest improved production vehicle with a time of 35.86, from James Atkinson with 35.97. Kevin Mackrell, driving the 4WD Datsun in the Performance/Evo class continued on with one of his many 32 second runs.

Run 6. Could Peter Gumley be caught? Not by Brett Hayward, who was marginally slower with 30.82, nor Alan O'Connell who was also slightly slower with 30.59, nor Ashley Cutchie who was faster than previously with 30.86 (still not enough), or Gary West who recorded his second sub 30 time with 29.88, or Andrew Howell who was slightly slower with 30.60, or Rod Moody who put in his best for the weekend with 30.96, or Garry Kent who also put in his best for the weekend with 31.56.

Greg Ackland snuck in on this run and put in a time of 31.15, which placed him in for eighth overall for the event. Terry Dowel was not headed in historic, nor was Andrew Mitchell in sports cars, or Wayne Burden in sports sedans. James Atkinson went faster on this run, and now headed the improved production field by almost half a second, from Wim Janssen and Stephen Kent.

Run 7. Was this the Championship run, or had the Championship already been decided?? We run our events with Formula Libre cars first, with cars running in numerical order in class order – small engine classes thus first. In the up to 1300 class, contender Brett Hayward recorded a 30.71 – not his fastest for the weekend, so no championship for him. In the 1301 to 2000 Alan O'Connell decided not to run, so he missed out on the championship. Ashley Cutchie recorded his fastest time of the weekend at 30.81, but unfortunately not fast enough. All eyes were on the top 3 in the larger engine class. Peter Gumley ran first, and recorded a 30.21, not his fastest for the weekend, but he was still in front. Gary West took centre stage – could he beat the Gumley time?? Gary went over the finish line sideways, recording his third under 30 second run for the weekend, and on this occasion – 29.66!!

Was the Championship his by a mere 0.06 seconds or would Andrew Howell record a faster time? Andrew recorded his fastest time for the weekend of 30.21, so the Championship belonged to Gary West (his first of three as it transpired). The rest of the runs were really an anticlimax, with none of the leaders in each category being beaten on this run.

There were some excellent performances on the day, with some very close results in classes- such results included Formula Ford, where Paul Zsidy (34.22) won from Wesley Inkster (34.39) and Barry Gibbons (34.76). Tom Donovan (33.06) won the FL up to 750 from Allan Foster with a best time of 33.12, Hamish Rhodes won the Historic Group N up to 2000 with a best of 37.24 from the rarely beaten Lindsay Siebler with 37.30. Norm Beechey returned to the competition and recorded three 39 second runs — excellent times for such a big car. Eleven new records were set on the day, many of which will remain in posterity. An excellent weekend was had by all!!

The top 11 results (sub 32 seconds) were:

c	The same of the sa	
Gary West (WA)	Lola T87/50	29.66
Peter Gumley (NSW)	SCV	29.72
Andrew Howell	Pilbeam MP82	30.21
Alan McConnell (Qld)	Van Dieman	30.48
Brett Hayward	Suzuki	30.54
Ashley Cutchie	Swift	30.81
Rod Moody	Cheetah	30.98
Greg Ackland	Ninja	31.15
Simon Lake (Qld)	Axtell Suzuki	31.36
Garry Kent	GAK 04	31.58
Alan Foley	Talbot RF	31.69

Peter Gumley returned to the winners circle in 2005 and 2007, whilst Gary West took the honours in 2006 and 2008. Brett Hayward broke the Gumley/West dominance by taking the title in 2009.

...and a shot from 'The Autocar' magazine of 21st February, 1958, from an article looking at useful motoring accessories for the period.

They may well have been a fine tool set, but I doubt any modern manufacturer would dare use such a boastful brand name nowadays! If you look closely, you can see the name is even stamped on the handles, so when you're working you can be holding...oh, never mind.

Ed: I hope you have enjoyed reading some of the historical items from the GCC that have been included in recent VB editions. Many of these come from the depths of John Bryant's memory banks, or his vast record & magazine collection. On the next page John outlines his background, and **your** opportunity to assist in building an even greater collection of documents that we can all draw from. Please get involved! This is one thing we can all be doing to help the club while there is no competition.
